```java
public class WebTabelAssignment {

    public static void main(String[] args) throws InterruptedException {
        // TODO Auto-generated method stub

        WebDriver driver = new ChromeDriver();

        driver.get("https://vinothqaacademy.com/webtable/");

        driver.manage().window().maximize();
        Thread.sleep(5000);

        // Find all rows inside the table
        List<WebElement> rows =
                driver.findElements(By.xpath("//table//tr"));

        // Print all table details
        for (WebElement row : rows) {

            List<WebElement> columns =
                    row.findElements(By.xpath("./th | ./td"));

            for (WebElement column : columns) {
                System.out.print(column.getText() + " | ");
            }

            System.out.println();
        }

        driver.quit();

    }

```
