

weekend test 2 :- Retext : 2

Q write a program for the following:

Input: < 50 Output: Poor

Input: between 50 & 60 Output: Average

Input: above 60 below 75 Output: Good

Above 75 Excellent.

```
Public class: Ranking
```

```
Public static void main (String [] args) {
```

```
    If int. (mark  $< 50$ ) {
```

```
        System.out.println ("Poor");
    }
```

```
    Else if (mark  $\leq 60$ ) {
```

```
        System.out.println ("Average");
```

```
    Else if (mark  $< 75$ ) {
```

```
        System.out.println ("Good");
```

```
    }
```

```
    Else {
```

```
        System.out.println ("Excellent");
```

```
    }
```

2. write a program to print only Even numbers, from 1 to 50.

```
Public class: EvenNumbers {  
    Public static void main (String[] args) {  
        for (int i = 1; i <= 50; i++) {  
            if (i % 2 == 0) {  
                System.out.println(i);  
            }  
        }  
    }  
}
```
