```java
package Seleebasic;
import java.util.List;

public class FindElementAssignment {

    public static void main(String[] args) throws InterruptedException {

         WebDriver driver = new ChromeDriver();
            driver.get("https://www.demoblaze.com/");
            driver.manage().window().maximize();
            Thread.sleep(5000);

            // Find elements using findElements()
            List<WebElement> links =
                    driver.findElements(By.linkText("About us"));
            Thread.sleep(5000);
            // Click the About us link
            for (WebElement link : links) {
                if (link.isDisplayed()) {
                    link.click();
                    break;
                }
            }

            Thread.sleep(5000);

            driver.quit();
        }

    }
```
